FRIENDSHIP ART EDUCATION FOUNDATION

is looking to host 1 volunteer. English required.

 [Lelenfant Project](#)

Lelenfant Project

The tasks of the volunteer will be mainly related to but not limited to the following main activities:

- Intercultural Urban Gardening Project - workshops for children and seniors
- European Mobility Week
- Lelenfant project

The volunteer will support Lelenfant 2024 edition of the project by assisting with many elements of planning, preparation and production, including (but not limited to):

- researching and maintaining contact with specific artistic groups;
- researching grants and sponsors for groups (companies, consulates, embassies, etc.); coordination of elements of the program (assistance to instructors who work with the children, leaders of international groups, support in coordination of local volunteers); managing expectations, collecting necessary paperwork, helping to arrange logistical details;
- creating and updating documents for the project (e.g. invitations, cooperation agreements, etc.);
- writing descriptive and promotional materials for the project (for patronage, social media, promotion, website, etc.);
- participating in weekly staff meetings and assisting in creating a schedule of events;
- presenting about ESC to Volunteers, Group Leaders and Host Families;
- preparing workshops related to the topic of climate change and global education;
- developing and coordinating of activities for local participants (meetings for host families, children, and local volunteers);
- preparing and leading intercultural, ecological workshops (including teaching languages) for local children
- contributing to project reports with information about individual projects they supported.

The volunteer will have 6 hours of volunteering work per day in the foundation's office. One extra hour per day (5 per each week) will be used to prepare new activities, to reflect and for other activities in the project outside the hosting organisation such as work for the local community, dissemination of results, obligatory meeting with the team etc.

In addition, the volunteer will have the opportunity to develop an independent project for the local community, contribute their ideas and vision for the educational program for the children, and help with the production of the project in Poland and abroad.

Volunteering hours in the office are from 10am to 4pm. The volunteer's tasks will vary from day to day depending on the project's needs and participant's interests so there really is no typical day! For instance, one day the volunteer might spend several hours in the morning sending reminder emails to different groups to request certain documents or information or maybe work on a post for the Lelenfant website. The volunteer may take a lunch break when it works best with their work progress (it's a good idea to check in with any project staff with whom you are working on a task just to let them know that you are taking lunch). The volunteer can choose to bring their own lunch or get lunch at one of the restaurants nearby.

In the afternoon, the volunteer may spend time working on managing social media, updating content on the website, producing promotional materials or documents, or working on an independent project of their own design. Some evenings or weekends, there may be additional meetings, workshops or promotional events in which the volunteer will participate. For example, training and meetings with host families, and the volunteer may be asked to organize a workshop or activity for host family children during this time. These extra hours can be made up with additional time off on a case-by-case basis.

Once a week (more often in the weeks leading up to the Lelenfant project itself), the project staff and the volunteer will have an operational meeting to discuss progress on various tasks. The volunteer will also have a weekly check-in with their tutor to check in on how work is going, clear up any questions, and set goals for the next week.

In addition, during the time of the Intercultural Urban Gardening project or Lelenfant local edition itself there are many activities taking place: the volunteer may have more volunteering work hours due to the demand of the project. In this case, extra hours will be compensated. During the project, the volunteer may also choose what to focus the energy on in consultation with project staff.
